

Hemofarm Group, Belgrad
Interior architecture: Svetlana Marcovic / Goran Obradovic

Hemofarm
36 Carli Caplina Street
Belgrade
Serbia

Completion date: 2009
Products:
netwin

The **netwin** swivel chair with a backrest covering made of a net-like membrane material was used for furnishing.

The international pharmaceutical company Hemofarm has moved into a newly erected administration building in Belgrade. Around 150 employees have been provided with new workstations here. For the interior design, special care was taken to represent the corporate identity in the colour scheme. The shades of orange from the company logo are displayed by the fixtures and fitting. In the new service centre, pharmaceutical representatives, pharmaceutical specialists as well as doctors provide advice on the products and their effects.

Hemofarm service center with the **netwin** purpose-built swivel chair in a colour that reflects the company's corporate ID.

A film from Hemofarm providing information in the Serbian language presents comprehensive impressions of indoor spaces.
