

InBev Brauunternehmen, Leuven
Architects: Polo - Poponcini Lootens ir. Architecten, Antwerp

InBev
Brouwerijplein
Leuven
Belgium

Year built: 2006
Furniture: **early bird**
and **open up**

The world's largest brewing company, producing the Beck and Stella Artois brands, engaged Poponcini Lootens ir. architects to create a new administration complex. The company campus encompasses several buildings and green areas which connect the headquarters organically to the surrounding urban landscape.

A total of 1100 chairs from Sedus were used. The photos show the **early bird** swivel chair. Photos: Filip Van Loock
